It is to YOUR ADVANTAGE to Mail Your Bids Early!

To Avoid Misunderstanding Please Read These Terms of Sale Before Bidding

Positively no change from these terms made for anyone.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer $1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalog. This guarantee holds good indefinitely. And my guarantee means something to you. Remember that there are thirty years of proven successful numismatic experience and ample financial responsibility back of this guarantee.

NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me or those who have had no previous credit established, must send a deposit of at least 25% of their bids, otherwise **they will not be accepted,** as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing values of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, April 14, 1931.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

Complete Collection of Large United States Cents.

852 Complete Collection of Large Cents, 1793 to 1857 inclusive: both varieties of 1796, 1802 with and without stems; 1803 small and large fraction; 1807 over '06, and perfect date, 1810 over '09 and perfect date; 1814 plain and Crosslet 4's; 1817 thirteen and fifteen stars; 1819 large and small dates; 1820 large and small dates; 1828 large and small dates; 1840 and 1842 small and large dates and 1857 small and large dates. Varieties of 1855 and 1856. The condition of the collection is most acceptable; the early dates are fair to good and others good to fine. A collection not easily gotten together. The 1799 is just about fair and the 1804 is fair. Please make your bids at so much per piece and not by the lot. 79 pcs.

853 **Duplicate Large Cents.** 1800 to 1856, not all dates but about thirty-five to forty different dates. The early dates, of course, are about fair and some probably poor, but others up to good and very good. 200 pcs.

854 Another lot similar to last in assortment and condition. 300 pcs.

855 Another lot as last; good assortment of dates but mostly of the 50's. 500 pcs.

Extremely Rare New Variety 1803 Cent.

857 1803 Newcomb No. 24. Small fraction. The reverse differs from all others, the point of leaf is below D in UNITED; the word OF is much nearer A than to the last S in STATES. The first specimen of this rare variety discovered, some three years ago, according to Mr. Newcomb, the acknowledged authority on these cents, has a die break connecting the top of NITE in UNITED. This specimen is with **perfect** reverse die, and is the only specimen of this variety known as far as I can ascertain. The coin is very good obverse with about fine reverse, but the obverse has been silvered and has a very small die or planchet defect to right and above bust. I discovered this specimen and have since been offered $25.00 for it by another dealer. It is here offered and will be sold at any price it may bring above $25.00. I understand that a perfect specimen was sold at private sale for $180.00.

Note: The discovery of this extremely rare variety 1803 Cent illustrates the value of good books on our coinage. Mr. Newcomb's wonderful book on the cents of 1801, '02 and '03, is a masterpiece. It contains five actual photographic plates of the obverses and reverses of these cents. The book is of eighty-five pages, large folio size, describing minutely the different varieties, combinations, etc., of these cents. The possession of such a book is easily made profitable to the owner from the fact that an ordinary cent which you may secure for a dollar or two may turn out to be a $25.00 or $50.00 coin. I have a few copies of this excellent book and offer it at actual cost of production, $7.00 per copy. When this edition is sold out, it will not be long when this book will bring $25.00 or more.

OTHER RARE AND VALUABLE BOOKS on U. S. CENTS.

858 "The Cents of the United States," by F. W. **DOUGHTY.** A perfect copy in original paper covers, the upper portion of front cover has name of former owner. This now very valuable and famous book was published in 1890 and is today still the standard on the subject. I understand that a copy of this work sold at auction up to $30.00 some three or four years ago. Besides the copy I have in my personal library, I do not recall of ever having more than one or two other copies of this valuable and famous book in my thirty years of numismatic experience.

859 Hays, "Varieties of U. S. Cents of 1794." Published in 1893 and still the standard on the subject. A perfect copy in original red cloth covers with plates in perfect condition. Very rare and valuable and most difficult to obtain.

860 Andrews on the "Cents of United States from 1816 to 1857." Originally published in 1883, re-printed by me in 1924. This is the re-print which I retailed at $2.00 per copy, but of which the entire issue has been sold out and I have none for sale. This is a perfect clean copy with the exception of the outside back cover slightly stained.

Note: I have a limited number of catalogs of the great Dr. French Collection of cents, listing, minutely describing and pricing over 800 different varieties of the large cents, valued at over $50,000.00. By far the greatest collection of cents ever cataloged. This wonderful catalog may still be had at only $2.

Four minute pin-point nicks on reverse and a small planchet defect on right border. The lower left portion is weakly struck, the date as usual is also weak. From the famous Judge Slack Collection, sold by me six years ago. When this specimen was offered in my sale of the Judge Slack Collection, it was the first specimen, with only one exception, to be offered at auction in over forty years. An Ordinary $1. to $2. Cent Brings Fifty Dollars !

All "decent" looking Cents of 1801, 1802 and 1803 are not sold by me until I first find out their rarity and variety as listed in Mr. Newcomb's superb work on the Cents of these dates. I do this for the reason that just recently I found one 1803 cent which I promptly sold for $50.00, and just now I have another one, which is offered in this sale, lot No. 857, for which $25.00 was offered me by a dealer.

Had it not been for Mr. Newcomb's book, these cents would have been sold for a dollar or two. But by having Mr. Newcomb's book I was able to promptly identify and recognize the rarity of these cents so that it meant a difference of more than $75.00 to me, not to mention the satisfaction and pleasure of learning and KNOWING real values.

Mr. Newcomb's remarkable work on the Cents of 1801, 1802 and 1803 is not merely a "book on cents." It is a real reference work: *A real work of art,* with *actual photographs* of the coins inserted in the book, not merely plates. You simply have to see this superb book to really appreciate its value.

The price of this de luxe work is $7. Post free.

(This is less than cost of production, as this was a labor of love on the part of Mr. Newcomb, who is one of the few recognized authorities on Cents. And there is not a cent of profit to me in its sale.)

And mark my word: This same book will some day sell for $25.00 or more.

You will be proud to own it regardless whether or not you collect Cents. But if you do have Cents, you'll find it a real Treasure.

PLEASE READ THIS IMPORTANT NOTICE

Bids for this Sale will be accepted ONLY on the terms as printed in this catalog. If you are bidding for the first time or if you are not acquainted with my Sale Terms, PLEASE BE SURE TO READ THE TERMS BEFORE BIDDING.

Nearly two thousand (2,000) catalogs of this Sale are being distributed. Therefore, in order to serve most satisfactorily so many clients, a uniform service or method of sale must be strictly adhered to.

The terms and methods of Sale used by me have been perfected after nearly thirty years of successful experience. And while I know that it is humanly impossible to at all times please everyone, but the fact that my Sales are so widely and extensively patronized throughout these many years, is more than sufficient evidence that these terms and methods of sale are approved by the collectors of the country and that they are fair, reasonable and consistent with good business.

So please bear in mind that positively no changes from the terms of sale as printed in this catalog will be made for anyone.

Every bid received is executed by me just as faithfully as if you had yourself been present at the sale. You can help me give you better service if you will please mail your bids now.

Very cordially,

From the Will of Edmond de Goncourt

(Translated)

My wish is that my Drawings, my Prints, my Curiosities, my Books—in a word, these things of art which have been the joy of my life—shall not be consigned to the cold tomb of a museum, and subjected to the stupid glance of the careless passer-by; but I require that they shall all be dispersed under the hammer of the Auctioneer, so that the pleasure which the acquiring of each one of them has given me shall be given again, in each case, to some inheritor of my own tastes.
